

## Desk Statement

David Sternberg Terri-A White

09/28/2012 06:31 PM

This Administrative Order on Consent represents the next step in the Partnership Agreement (announced last April) and will help guide the City and inform the State and EPA as progress is made towards compliance with the goals of the City's Long Term Control Plan and the Clean Water Act.

Through its LTCP, Philadelphia has committed to making significant investments (estimated at \$2 billion) in green infrastructure over the next 25 years to make communities cleaner, healthier, and more livable.
